

# Web Meetings

# Web Meetings:

- **Are you looking for a powerful way to make your event or meeting visible far beyond the walls of the venue?**

**Our online solution makes this immediately possible for you.**

>>>>> **Webcasting, web conference or Webinar** are today's most popular methods to increase the reach of your event.

- With our online solutions you can make images and sound available via the internet and extend the reach of your audience.

>>>>> In addition, an immediate digital recording can be made, which by its turn enable users to view the material when it suits them best.

“Meet in person, across the world.”

- To clear the confusion between the terms webcast, webinar and web conferencing, check out the following comparison:

	<b>Webcasting</b>	<b>Webinar</b>	<b>Web Conferencing</b>
Size	Online broadcasting for larger groups up to thousands of people.	online for smaller groups up to hundreds of people (larger than web conferencing)	interaction is usually between smaller groups (business meeting of 6, 12, 24 people)
Function	Text interactive Only Host will present slides, videos and graphics to a large audience.	Audio Interactive	Audio & Video Interactive
Model	One-to-many	One-to-many	Many to many
