

Audience Response Systems (ARS)

Audience Response Systems (ARS):

- “**Audience Response Systems**” is the clear choice if you need a turn-key audience interaction.
- ARS offered by **Demo AV** transform any meeting, no matter the crowd size, into a lively, interactive session by encouraging interaction between audience and the presenter.
- *Audience polling questions* integrate seamlessly with *PowerPoint™* presentations to keep people focused with the meeting content.

ii. Why ARS?

- *Maintain audience engagement & involvement.*
- *Quickly build consensus.*
- *Streamline data compilation & archiving.*
- *Present poll results instantly.*
- *Illustrate complex concepts simply.*
- *Instantly archive compiled data for future access.*
- *Conduct fast, accurate, anonymous voting.*
- *Make instant demographic comparisons.*
- *Gather marketing information.*

ii. Why our systems !?

- Your event is important for your reputation is on the line, more over your time is too valuable to put it in anyone hands but the best.

>>>>> We will provide you with quality product as well as first class service.

- Our (ARS) experts will work closely with you to ensure a smooth, productive event from scratch.

>>>>> You just provide the meeting goals and question content, and ARS does the rest.

iii. Demo AV vs. others !?

- What truly sets us apart is that unlike many vendors, Demo AV never uses inexperienced staff to implement the ARS at an event. Our full-time project staff travel to event sites to oversee every aspect of ARS implementation and execution, including:

- ✓ Equipment installation, testing, and troubleshooting
- ✓ Software programming
- ✓ Rehearsals
- ✓ Facilitation of Q&A sessions presentation
- ✓ Reporting and data processing.
